What is BNKX

BNKX is a decentralized digital currency designed to reshape the future of finance through transparency, speed, and accessibility. Built on the Binance Smart Chain (BEP-20), BNKX empowers users with low transaction fees, fast settlement, and complete ownership over their assets.

Fixed Supply: 600 million tokens with deflationary design.

Security First: Smart contract audited and liquidity locked.

Community Driven: Built for the people, by the people.

Real Use Cases: From payments to staking and DeFi tools.

BNKX isn't just a token—it's a movement for a fairer financial system.

Blockchain is the backbone of BNKX —
powering its mission for decentralized trust and
inclusive finance.

Why Blockchain Matters

Blockchain technology is more than just a trend — it's a foundational shift in how value, data, and trust are managed across industries. Its decentralized nature eliminates the need for intermediaries, ensuring transparency, security, and efficiency.

Transparency: Every transaction is publicly verifiable and immutable.

Speed: Peer-to-peer transfers without delays or third-party approvals.

Lower Costs: Cuts out middlemen and reduces transaction fees.

Global Access: Empowers unbanked populations to participate in digital finance.

Security: Data stored on blockchain is encrypted and tamper-proof.

Token Symbol: BNKX
Decimals: 18
Network: Binance Smart Chain (BEP-20)
Smart Contract:
0xfd73cCF13F1DAaFb807FAdf03Cef21ef06aC8f63
Initial Price: 1 BNKX = 0.0001 USDT ≈

BNKX

Tokenomics & Supply

BNKX TOKENOMICS & SUPPLY

The BNKX token is designed with a clear, sustainable, and transparent economic model.

Category	Amount	Percentage
Presale	300,000,000	50%
Liquidity (LP)	180,000,000	30%
Marketing	40,000,000	6.67%
Development & Research	40,000,000	6.67%
Team & Reserves	40,000,000	6.67%

Use Cases of BNKX

Digital Payments

Seamless, low-fee transactions within BNKX ecosystem and partner platforms.

Access to Decentralized Finance (DeFi)

BNKX holders can stake, farm, or lend through integrated DeFi protocols.

Utility in dApps

BNKX powers a growing suite of decentralized applications built on BSC.

Governance Rights

Token holders can vote on proposals affecting BNKX roadmap and features.

Premium Access

Exclusive access to launches, airdrops, and investment pools for BNKX stakers.

BNKX Ecosystem Overview

BNKX Wallet (Coming Soon)

Secure, multi-chain wallet for holding and transacting BNKX.

BNKX Launchpad

Platform for launching vetted Web3 projects using BNKX token.

BNKX NFT Hub

Marketplace and staking platform for unique digital collectibles.

Community DAO

A decentralized governance hub led by BNKX holders.

Integrations

Cross-chain bridges, CEX/DEX listings, and DeFi protocol partnerships.

Every BNKX token is built to serve a purpose — fueling growth, ensuring liquidity, and rewarding community contribution.

Roadmap to Growth

Phase 1: Foundation Token Creation & Smart Contract Verification

- Website & Social Media Launch
- Whitepaper & Branding Kit
- Community Building (Telegram, Twitter)

Phase 2: Launch & Liquidity Pink Sale Presale Campaign

- Listing on PancakeSwap
- Liquidity Lock & Audit
- Marketing & Influencer Push

Phase 3: Expansion CEX Listings (Tier 2-3 exchanges)

- NFT Launch (BNKX Collectibles)
- Staking Pools & Rewards Program
- Global Ambassador Program

Phase 4: Governance & Ecosystem DAO Launch for Community Governance

- BNKX Wallet & Launchpad Release
- Ecosystem Partnerships
- Legal Frameworks & Regional Licenses

This roadmap reflects our current plans and goals. Adjustments may occur as we grow, but our focus on transparency and long-term value stays firm.

Security & Transparency

Smart Contract Audited

- BNKX's contract has been verified and published on BscScan. Community members can freely view and interact with the contract for full transparency.

Liquidity Lock

- 70% of raised liquidity will be locked for 90 days after launch to prevent early dumps and ensure investor trust.

Open Source & Verifiable

- All major transactions, token metrics, and wallet allocations are trackable on-chain via BscScan.

Community Oversight

- Our community is empowered to report issues, suggest changes, and participate in governance through future DAO integration.

Security isn't an afterthought — it's at the heart of BNKX's mission.

How to Participate / Join the Presale

Step 1:

Prepare Your Wallet Use a compatible wallet like MetaMask or Trust Wallet.
Set the network to Binance Smart Chain (BEP-20).

Step 2:

Fund Your Wallet Add USDT (BEP-20) to your wallet.
You'll use this to purchase BNKX tokens in the presale.

Step 3:

Visit PinkSale Go to our official PinkSale page (link will be announced soon).
Connect your wallet securely.

Step 4:

Buy BNKX Choose the amount of BNKX you want.
Confirm the transaction and you're in!

Step 5:

Claim & Wait for Launch Your tokens will be claimable at launch.
70% of liquidity will be locked for 90 days for your peace of mind.

Early supporters don't just invest — they help shape the future of BNKX.

FAQ

Frequently Asked Questions:

Q: On which network is BNKX built?

BNKX is a BEP-20 token built on Binance Smart Chain (BSC).

Q: When does the presale start?

The presale launch is marked as TBA (To Be Announced). Stay tuned to our official channels.

Q: Where can I buy BNKX after the presale?

BNKX will be listed on PancakeSwap after the presale ends.

Q: How do I know this project is secure?

Smart contracts are verified on BscScan. 70% of liquidity will be locked for 90 days.

Q: Is there a minimum buy limit in presale?

The minimum and maximum contribution will be announced on PinkSale.

A Word from the BNKX Team:

We didn't just build a token — we're building a movement.

BNKX is where vision meets value, and where community becomes legacy.

Join us, not just as holders, but as pioneers.

Those who join early become part of the legacy we're building together at BNKX.
